NLS Lighting's main goal—reduce energy consumption and triple light.

NLS' Dark Sky friendly optics compliant systems and competitively priced fixtures, achieve IES recommended foot-candles with the least amount of material. NLS' optical systems combined with custom in-house photometric design capabilities will provide the best optical solution for your application at the lowest cost with the least amount of energy and maintenance.

NLS BENEFITS

- Energy Savings up to 71%
- Uniform light distribution
- Neighborhood friendly, Dark Sky compliant
- Little to no maintenance with LED system
- No tilted fixtures required
- Motion sensors alert security
- Programmable 0-10V Philips Advance Dimming Driver
- Made in the USA

STAR POWER OPTICAL SYSTEM

- Patent pending
- 95% reflective material
- Flexible solutions
- Utilizes a linear diffused pattern, softening light distribution

MICRO OPTICAL SYSTEM

- Silicone, cell-enclosed modules
- Produces 96% clarity
- Heat resistant to 219.2° C, 50% higher than acrylic
