LIGHT COLUMN

LIRA

LIGHT COLUMN

The Lira Light Column RGBW LED color changing column luminaire blends beauty, design, color and expression into a single powerful luminaire or color rotations are endless. Color temperatures for pure White are now available in Warm (3000K), Neutral (4000K) and Cool (5000K) lumens. All selections can have time duration set for each color to achieve exciting transitions—each color beautifully blending into the next programmed color (DMX Controller required for RGB).

Enjoy creating various lighting effects for all different applications or can be continuous warm, neutral, or cool white for an even glow. These columns can be conveniently programmed with other façade or fountain fixtures. This color-changing across all fixtures effect can be identically coordinated and timed, creating a multi-level fusion of light that will enhance any project design.

Column height can range from 3 to 17 feet at sizes LIR-6 (6" OD) or LIR-8 (8" OD). Its column uses a polycarbonate lens, which is reinforced by integral tubing. Optional shields for lenses are available. Optional custom logos are also available in shielding.

FEATURES
